In-house paid media for life insurance, pensions and wealth products across U.S. and Canadian business units.

- Own **bidding, budget allocation and campaign structure** across **50+ U.S. and Canadian business-unit ad accounts** in a **seven-figure annual media program**; LinkedIn is the primary channel, alongside Google Ads and Meta. Build channel-allocation forecasts for Director sign-off.
- Connected **HubSpot offline conversions** (qualified leads, booked calls, completed applications) to **Google Ads Smart Bidding** and Meta optimization, shifting bidding from form submissions to down-funnel pipeline signals.
- Built a LinkedIn **account-based marketing (ABM)** program for affluent-investor account openings using Matched Audiences, Thought Leader Ads and carousel creative.
- Implemented GA4, server-side Google Tag Manager, Enhanced Conversions and Meta Conversions API (CAPI), increasing **Meta Event Match Quality by 25%** and improving browser-to-server event deduplication.
- Audited analytics and removed double-counted clicks, key events and conversions caused by overlapping GTM tags and triggers, restoring reliable conversion data for reporting and Smart Bidding.
- Created a **Google Apps Script campaign builder** with standardized UTMs, naming conventions and compliance controls; adopted team-wide, cutting **compliance review time by 60%** (~12 working days saved annually). Use Google Ads scripts for account automation.
- Set direction for and review two external agency partners, and deliver bi-weekly reports to the CMO on channel performance, measurement quality, budget pacing and optimization.
