PAID MEDIA / SELECTED WORK

# Andrew Fonseka.

## Paid Media Specialist

Paid media judged on customers, not clicks. I connect media, measurement and CRM data so budget follows qualified leads, enrolments and funded accounts.

**GOOGLE ADS · META · LINKEDIN · MICROSOFT ADS · MEASUREMENT**

GREATER VANCOUVER, BC · andrewfonseka.com

OVERVIEW / THREE OPERATING MODELS

# Experience that ends at the outcome.

Agency, in-house and contract work across financial services, education, e-commerce, retail and local services.

| 7-figure | 50 +~100 | 6 | 2022 |
|---|---|---|---|
| ANNUAL PAID MEDIA PROGRAM | BUSINESS-UNIT AD ACCOUNTS | MARKETS | PAID MEDIA SINCE |
| In-house · Aegon | Owned · co-managed with the team | CA · US · SA · LK · SG · MY | Agency · in-house · contract |

## EXPERIENCE BY OPERATING MODEL

01 / AGENCY

### Kites Global · Enfection

Multi-client delivery in banking, retail and e-commerce across Sri Lanka, Singapore and Malaysia, including client calls and new-business pitches.

02 / IN-HOUSE

### Aegon

LinkedIn-led media for insurance and wealth products: CRM-driven bidding, a new high-net-worth ABM program and compliant workflows across U.S. and Canadian business units.

03 / CONTRACT

### 7 clients · 2026

Part-time contract work for education, local services, automotive and hospitality clients, including engagements through partner agency SOL.

PORTFOLIO PRINCIPLE **A lead is a starting signal. The client's actual outcome is the scoreboard.**

CASE STUDY 01 / AEGON / IN-HOUSE / U.S. & CANADA

# Bid on pipeline, not form fills.

Financial services · Google Ads, Meta and HubSpot · 2025–2026

### THE PROBLEM

Smart Bidding and Meta optimized to form submissions, which said little about who became a qualified applicant.

### THE SIGNAL

HubSpot already held the down-funnel truth: qualified leads, booked calls, completed applications.

### THE DECISION

Fed those stages back as offline conversions and restructured the Google Ads accounts around them.

### THE LEARNING

Bidding gets smarter when the algorithm sees what sales sees.

### OUTCOMES

**−13%**

COST PER LEAD

After the change

**+18%**

COMPLETED APPLICATIONS

Same period

### OPTIMIZATION POINT MOVED DOWN THE FUNNEL

01 Ad click → 02 Form fill → 03 Qualified lead → 04 Booked call → 05 Completed application

CASE STUDY 02 / AEGON / MEASUREMENT & OPERATIONS

# Trust the data. Then automate.

GA4 · server-side GTM · Enhanced Conversions · Meta CAPI · Apps Script

| +25% | 5-figure | −60% | ~12 days |
|---|---|---|---|
| META EVENT MATCH QUALITY | ANNUAL WASTED SPEND CUT | COMPLIANCE REVIEW TIME | WORKING TIME SAVED / YEAR |
| Relative improvement | After removing double-counting | Campaign builder, team-wide | Estimate |

## FIX THE SIGNAL

- Audit found overlapping GTM tags double-counting clicks, key events and conversions.
- Rebuilt on GA4, server-side GTM, Enhanced Conversions and Meta CAPI with clean browser-server deduplication.
- Corrected data reset reported CPA, budget decisions and agency spend.

## AUTOMATE THE REPEATABLE

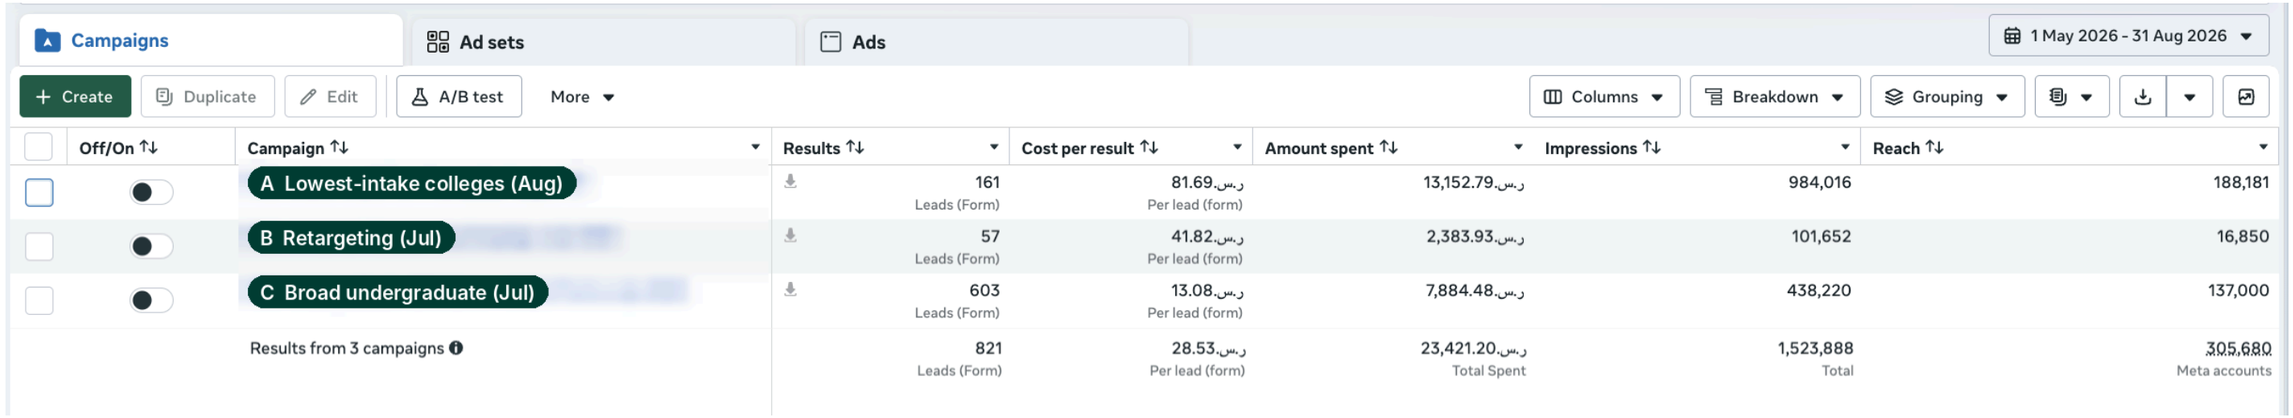

| | |
|---|---|
| 01 Campaign inputs | 02 Apps Script builder |
| 03 Naming · UTM · compliance | 04 Approved launch |

Team-adopted Google Apps Script builder; routine account tasks automated with Google Ads Scripts.

CASE STUDY 03 / SAUDI PRIVATE UNIVERSITY / MAY–AUG 2026

# Optimize for enrolments, not form fills.

The broad campaign delivered only 17 enrolments for the two lowest-intake colleges, so I gave them dedicated high-intent forms, their own budget and A/B-tested creative. Contract via partner agency SOL.

| Off/On | Campaign | Results | Cost per result | Amount spent | Impressions | Reach |
|---|---|---|---|---|---|---|
| | A Lowest-intake colleges (Aug) | 161 Leads (Form) | 81.69 ر.س Per lead (form) | 13,152.79 ر.س | 984,016 | 188,181 |
| | B Retargeting (Jul) | 57 Leads (Form) | 41.82 ر.س Per lead (form) | 2,383.93 ر.س | 101,652 | 16,850 |
| | C Broad undergraduate (Jul) | 603 Leads (Form) | 13.08 ر.س Per lead (form) | 7,884.48 ر.س | 438,220 | 137,000 |
| | Results from 3 campaigns | 821 Leads (Form) | 28.53 ر.س Per lead (form) | 23,421.20 ر.س Total Spent | 1,523,888 Total | 305,680 Meta accounts |

Meta Ads Manager · 1 May–31 Aug 2026 · original screenshot, institution identifiers removed · enrolments are from the university CRM

**821**
META LEADS

**430**
QUALIFIED LEADS

**312**
FEE-PAID ENROLMENTS
CRM-matched: name, phone, ID

**~US$20**
PER ENROLMENT
~US$6.2K total spend

**LEADS → ENROLMENTS BY CAMPAIGN**

CASE STUDY 04 / PAN ASIA BANK / 2023

# Follow the leads that become loans.

Kites Global agency · Sri Lanka · I designed and presented the Meta video strategy pitch and ran client calls through delivery

### THE PROBLEM

Win borrowers in a competitive gold-loan market on a fixed budget.

### THE SIGNAL

Meta produced higher-quality leads at a lower CPL than Google Ads.

### THE DECISION

Split 60% Meta / 40% Google; judged weekly on funded loans, not forms.

### THE LEARNING

Low CPL means little until qualified leads become funded loans.

### BUSINESS OUTCOMES

**259**
FUNDED GOLD LOANS

**US$500K**
LOAN VALUE
Client-reported

**US$25K**
MEDIA SPEND

**~US$97**
MEDIA COST PER FUNDED LOAN

CHANNEL BUDGET ALLOCATION

**NOTE** US$500K is client-reported loan principal, not bank revenue; the ratio is not ROAS.

CASE STUDY 05 / PETMART.LK / APR–JUN 2023

# Turn acquisition into repeat commerce.

Kites Global agency engagement · Sri Lanka · Google Shopping, Performance Max and Meta

**+40%**
**PAID-ATTRIBUTED SALES**
Quarter over quarter

**+30%**
**SUBSCRIPTIONS**
Same quarter

**4:1**
**FIRST-ORDER ROAS**
Shopping + PMax

## THE PROBLEM

Campaigns didn't separate prospecting from returning-customer activity.

## THE LEARNING

Acquisition is worth more when it's built to bring customers back.

## THE DECISION

Restructured Shopping and Performance Max, with complementary Meta campaigns.

## RELATED CREATIVE WORK

**February 2023 Petmart × Sugar Beach Valentine activation.**

Shown for creative context only, not as evidence of the April–June results.

CASE STUDY 06 / DATS / TRADES EDUCATION / 2026

# More qualified leads. Same budget.

Contract · Google Ads, Meta, Microsoft Advertising and an AI-assisted enquiry journey

**+20%**
CRM-QUALIFIED LEADS
At flat spend

**40%**
OF 212 LEADS FROM MICROSOFT ADS
Engagement's second quarter

**4×**
FASTER ENQUIRY REPLIES
AI assistant vs. manual

**~US$900**
MONTHLY MEDIA BUDGET

## THE SIGNAL

CRM-qualified leads in Dynamics 365, not raw form fills, exposed the bottleneck.

## THE DECISION

Rebuilt Google and Meta, added Microsoft Ads, simplified the Lovable landing page, launched a 24/7 AI assistant.

CRM-QUALIFIED LEADS · INDEX (BEFORE = 100)

HOW I WORK

# A better signal. A better decision.

Diagnose the constraint, connect the measurement, test what matters and scale what works.

### 01 / FIND THE CONSTRAINT

Audit tracking, search terms, creative, landing pages and CRM quality.

### 02 / DEFINE THE OUTCOME

Agree the business result and build the channel mix around it.

### 03 / TEST WHAT MATTERS

Prioritized experiments with success criteria set up front.

### 04 / SCALE ON EVIDENCE

Report outcomes and reallocate budget to what works.

### 05 / SYSTEMIZE

Document results and automate the repeatable.

## PLATFORMS I WORK IN

- Google Ads
- Microsoft Ads
- Meta
- LinkedIn
- TikTok
- GA4
- GTM
- HubSpot
- Looker Studio
- Apps Script
- Shopify
- Zapier
