PAID MEDIA · PERFORMANCE MARKETING

Paid media judged on customers, not clicks.

I connect media, measurement and the customer journey. Five case studies across in-house, agency and independent work.

Andrew Fonseka · MBA · Greater Vancouver, BC · Authorized to work in Canada

312

fee-paid enrolments

Private university, Saudi Arabia · May – Aug 2026

259

funded gold loans

Pan Asia Bank · US$25K media budget

4:1

first-order ROAS

Petmart.lk · Google Shopping and PMax

+19%

CRM-qualified leads at flat spend

DIMO Academy for Technical Studies · 2026

Figures are client-reported where stated. Employer results from Aegon are confidential and are not shown. andrew@andrewfonseka.com · 778-681-9041 · andrewfonseka.com

CASE 01 · AEGON · IN-HOUSE · FINANCIAL SERVICES · 2025 – 2026

Trust the data. Then automate the routine.

HOW A CAMPAIGN GOES LIVE

01 Build
Campaign structure, copy and settings built.

02 QA
Naming, UTMs and tracking checked.

03 Compliance
Quebec and U.S. state advertising rules for financial products.

04 Launch
Final approval, then live on Google Ads, Meta and LinkedIn.

05 Pace
Spend tracked against budget.

06 Report
Biweekly reporting to senior management.

INVESTOR JOURNEY · LINKEDIN ACCOUNT-BASED PROGRAM

01 Prioritize
Define the high-net-worth investor audience.

02 Reach
Reach them on LinkedIn.

03 Enquire
Enquiries captured and qualified in the CRM.

04 Meet
Qualified investors speak with an advisor.

05 Prepare
Paperwork and the account are prepared.

06 Fund
Success is measured on funded accounts.

My role. Managed Google Ads, Meta and LinkedIn campaigns for U.S. and Canadian financial products, and helped develop and launch the LinkedIn account-based program with the team.

Illustrative process. No employer results, budgets or figures are shown.

CASE 02 · PRIVATE UNIVERSITY, SAUDI ARABIA · ADVISORY VIA PARTNER AGENCY · MAY – AUG 2026

Optimize for enrolments, not form fills.

PROBLEM

Two colleges needed more students. A broad undergraduate campaign produced enquiries, but only 17 enrolments for those colleges.

DECISION

A dedicated Meta campaign and budget for the two priority colleges, separate from the broad undergraduate campaign. Every campaign judged on fee-paid enrolments in the university's CRM, not form fills.

MY ROLE

Advised on Meta lead-generation strategy and helped set up and implement the campaigns.

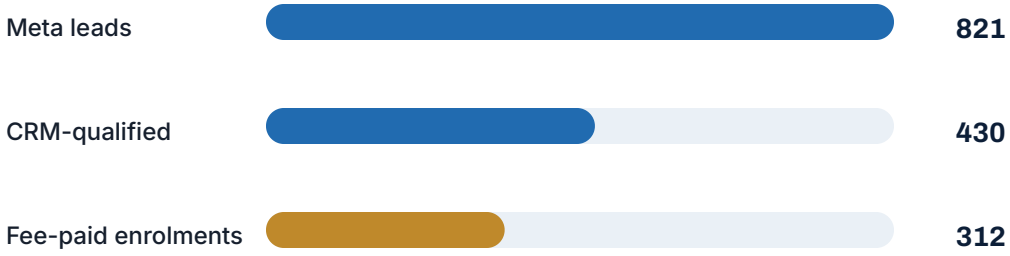

312
fee-paid enrolments

~US$20
media cost per enrolment

38%
lead-to-enrolment

From Meta lead to fee-paid enrolment

All campaigns · 1 May – 31 Aug 2026 · about US$6.2K media spend (US$7.61 per lead)

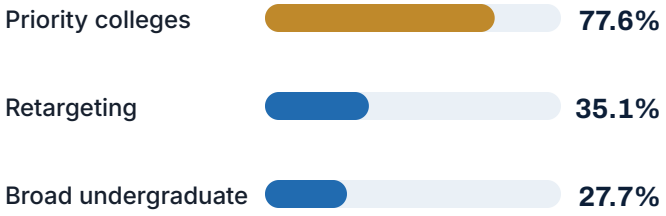

Fee-paid = first-semester deposit plus admission fee. Sources: Meta Ads Manager and the university's admissions CRM. Spend SAR 23,421 converted at SAR 3.75. Enrolments matched on name, phone and student ID and de-duplicated. Qualification data is available for all campaigns combined only.

CASE 02 · CAMPAIGN COMPARISON

The blended average hid the decision.

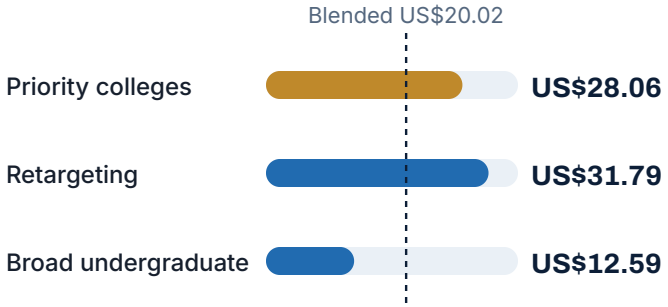

Lead-to-enrolment rate

Share of Meta leads that became fee-paid enrolments

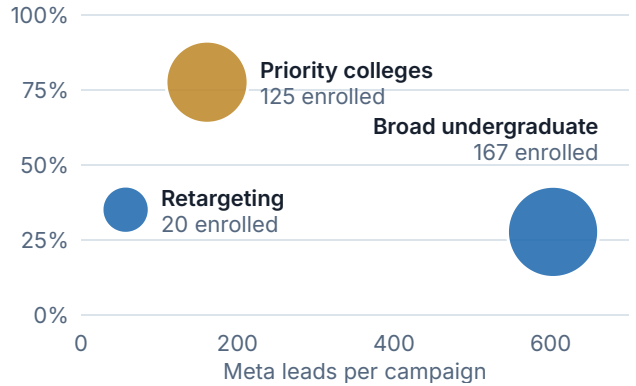

Media cost per enrolment

US$, by campaign; dashed line is the blended average

Volume against conversion

Leads (x) vs conversion (y); bubble size = enrolments

125 vs 17

enrolments for the two priority colleges: dedicated campaign vs the broad campaign.

The trade-off. The priority campaign cost more per enrolment (US$28 vs US$13 for broad) but filled the colleges that needed students, which the blended US$20 average had hidden. Retargeting converted 35.1% (20 of 57).

Campaign totals: priority 125 of 161 · retargeting 20 of 57 · broad undergraduate 167 of 603; 821 leads and 312 enrolments in all. Comparison between campaigns with different targeting, not a controlled lift test.

CASE 03 · PAN ASIA BANK · BANKING · AGENCY (KITES GLOBAL) · 2023

Lead quality made the allocation decision.

PROBLEM

Pan Asia Bank wanted gold-loan customers from paid media. A fixed US$25K budget had to produce funded loans, not just enquiries.

DECISION

Allocate 60% to Meta and 40% to Google Ads by lead quality, and measure the result on funded loans in the bank's own system.

MY ROLE

Account lead: strategy, the Meta video pitch and client calls.

259
funded gold loans
Client-reported

~US$97
media cost per funded loan

US$500K
loan principal lent
Client-reported

Budget allocation
US$25,000 total media budget

US$15,000 | US$10,000

US$25,000 media budget ÷ **259** funded loans = **US$96.53** per funded loan, about US$97

Funded loans and principal are client-reported. Loan principal is not bank revenue or profit, and the principal-to-media ratio is not ROAS. Channel-level funded-loan counts are not available.

CASE 04 · PETMART.LK · RETAIL · AGENCY (KITES GLOBAL) · MAR – MAY 2023

First orders. Lasting customers.

PROBLEM

Petmart.lk wanted paid media to drive first orders and subscriptions, and needed to see which spend was acquiring new customers.

ACTIONS

Split Google Shopping and Performance Max by new vs returning customers, and read first-order return alongside paid-attributed sales and subscriptions.

MY ROLE

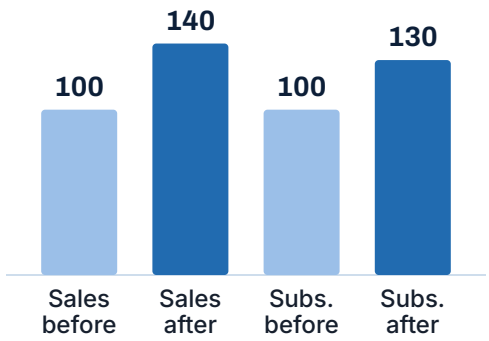

Paid media strategy and delivery, and helped launch a Valentine's Day activation with Sugar Beach (HI Magazine coverage).

4:1
first-order ROAS
Google Shopping and Performance Max

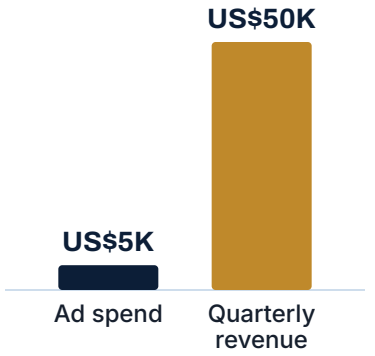

+40%
paid-attributed sales, QoQ
Client-reported

+30%
subscriptions
Client-reported

Indexed change
Before = 100

Spend and revenue
US$, client-reported

Valentine's Day activation creative · Petmart × Sugar Beach

Client-reported, Mar – May 2023 quarter, which was also boosted by the Valentine's Day campaign. Revenue is attributed to paid media and the brand activation together; first-order ROAS excludes customer lifetime value and is not an incrementality test.

CASE 05 · DIMO ACADEMY FOR TECHNICAL STUDIES · TRADES EDUCATION · INDEPENDENT · 2026

More qualified leads. Same budget.

PROBLEM

The college needed more enrolment-ready prospects at the same budget.

DECISION

Judge campaigns on CRM-qualified leads, rebuild Google Ads and Meta around them, and add Microsoft Advertising as a new intent source.

MY ROLE

Advised on acquisition strategy and supported the Google Ads and Meta rebuild. Deployed the AI chat assistant and added Microsoft Advertising.

+19%

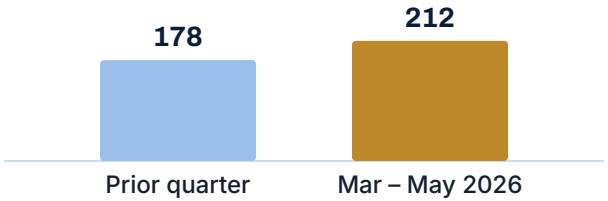

CRM-qualified leads vs prior quarter

~US$900

monthly media budget, unchanged

CRM-qualified leads per quarter

Raw counts, client-reported

+19%

178 to 212 at the same budget

01
Rebuilt Google Ads and Meta around qualified leads, with a new landing page and shorter form.

02
Added Microsoft Advertising as a new source.

03
Deployed an AI chat assistant.

Client-reported before-and-after comparison of consecutive quarters, not a controlled test. Budget about US$900 a month throughout.

HOW I WORK

Signal first. Budget follows evidence.

01
Audit the signal
Tracking, CRM fields, creative and search terms.

02
Define the outcome
Business goal, channel mix and a focused test plan.

03
Test, learn, reallocate
Audiences, offers and creative, judged on outcomes.

04
Report what matters
Cost per customer, pipeline quality and a recommendation.

PAID MEDIA

Google Ads (Search, Shopping, Performance Max, Demand Gen, YouTube), Microsoft Advertising, Meta Ads, LinkedIn Ads, TikTok Ads

MEASUREMENT

GA4, Google Tag Manager, Meta Conversions API, Enhanced Conversions, offline conversions, Looker Studio, Supermetrics

CRM AND AUTOMATION

HubSpot, Dynamics 365, Merchant Center, Shopify, Apps Script, Google Ads Scripts, Zapier
